Submitted on 9 Oct 2018

HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

Electronic Theses and Dissertations for Open Access

ETD4OA

Objectives

- Support EU infrastructures and OA policies for ETDs
- Address barriers and access-restrictions
- Take actions to promote input, openness and impact of ETDs in existing repositories and portals

WP1 Dissemination and Communication
- Creation of European ETD network
- Community management and promotion
- Guidelines, recommentations, and best practices
- Evaluation of progress

WP2 Policy Coordination
- Mapping of open access to European ETDs
- Benchmarking and case studies
- Comparison of legal provisions and rules
- Ethics and deontology in decision making

WP3 Monitoring Uptake
- Scientometric study on publishing models
- Evaluation of representativeness, comprehensiveness, and openness of ETDs in European repositories
- Survey on usage and uptake of ETDs in open repositories and portals

WP4 Outreach
- Public workshops and conferences
- Social networking and visibility, results publications
- Communication to general public
- Partnership with developing countries

WP5 Project Management
- Organize projects meetings
- Coordinate and review project reporting
- EC liaison
- Budget follow-up

Project Outputs

- white paper, recommentations, best practices,
- workshops, conferences,
- European ETD network,
- community management,
- publications
